

Biography:

Susan Ash-Lindsay, Director

Susan was appointed to the Senior Support Services (CPHC) Board of Directors in 2018 and elected in July 2019. She has expressed her keen interest in improving the health and well-being of seniors and keeping them in their homes and communities.

With approximately 10 years of recent experience as Power of Attorney, caregiver and advocate for three senior citizens who suffer from chronic and emergent health issues, Susan understands the importance and value for individuals to continue living at home, in their communities, with some measure of independence.

Susan was also a partner in a venture for children that continues to seek and promote imagination and creativity. She established and operated a charitable organization for several years prior to handing over the leadership role.

After 40 years of working steadily in both the private sector and large corporations Susan made the decision to retire.

Susan brings experience in corporate communications, law, benefits administration, hospitality management, and general office administration to our Board. The diversity of skills she has to offer have also been invaluable to the Finance-Audit-Risk Management Committee of the Board of which Susan is a member.

Susan and her family have vacationed and lived in the Westport area for many years.
