

Sherry Anderson, Retired Registered Nurse and Director of Nursing

Sherry was recently appointed Secretary of the Senior Support Services (CPHC) Board of Directors where she has been a Director for the past 3-years. As a retired Registered Nurse and Director of Nursing where she spent 30 years in health care working at Brockville General Hospital, caring for patients in ICU, Restorative Care, Rehab, Complex Care, and Palliative Care, Sherry brings impressive knowledge to the organization.

Throughout her career Sherry was a strong advocate for the patients; she worked collaboratively with various community and provincial teams to develop new programs, while building strong rapport with partner organizations. Her experience, ambition, and compassion aligns well with the mandate of the Senior Support Services –CPHC. Her ability to advocate for change/solutions with a clear understanding of resource and funding limitations, will contribute well to the organization and our Board of Directors.

Throughout her career in health care, Sherry witnessed the challenges that many seniors face that impact their ability to remain living at home. The importance having opportunity to receive community services and supports is critical for seniors who endeavor to remain living in their own homes and communities safely – preventing life-changing events that often lead to needless admission to hospital and/or long term care facilities.

Sherry's background and experiences have been a welcome addition to our Board of Directors further expanding the diversity of expertise of the Membership.

Sherry resides with her husband in Lyndhurst where they and they spend time enjoying their family (3 sons, daughter-in-laws, and 5 grandchildren) and friends on Lower Beverly Lake.
